For 16 years, the Nicholas E. Davies Awards of Excellence program has rewarded excellence in the implementation and value derived from the use of healthcare information technology (HIT) by provider organizations, private practices, public health systems and community health organizations. HIMSS proudly upholds this tradition – and the physician for which this honor was named, whose ideals of improving patient care through better health information management are a timeless inspiration.

As a HIMSS Davies Award recipient, you will be...

- ◆ Honored by a Committee of your peers for sustaining the vision of the electronic health record (EHR).
- ◆ Recognized for your expertise and achievements in healthcare delivery among your peers, professional associations, competitors and patient base.
- ◆ An inspiration to those who aspire to better patient safety, quality, effectiveness and efficiency.
