

change is everywhere...opportunity is here

Ambulatory Professionals Practicum

Tuesday, March 2

Georgia World Congress Center

During the 2010 HIMSS Annual Conference & Exhibition

Hosted by the HIMSS Ambulatory Steering Committee

This series of back-to-back educational sessions – offered at *no additional charge* to conference attendees – has been designed especially for Ambulatory practice professionals. Themed presentations and discussion will focus on a variety of topics. The Practicum will run concurrently with other HIMSS10 education sessions.

This unique, three-session Practicum will be chaired by Dr. Jim Sorace, Senior Medical Officer, Assistant Secretary for Planning and Evaluation, Health and Human Services, Washington, DC, and chair of the HIMSS Ambulatory Steering Committee 2009-2010.

Private Interoperability Showcase Tour

2:30 pm — Booth #233, Hall C

At the conclusion of this three-session series, Practicum attendees are invited to tour the Interoperability Showcase.

- See state-of-the-art interactive demonstrations.
- Learn how applications share patient data across a range of healthcare settings.
- Be among the first to witness how meaningful use will impact the latest standards-based connectivity in simulated healthcare environments.
