

**CALL FOR PEER REVIEWERS**  
**HIMSS 2010 Academic Forum**  
**Sunday, February 28, 2010**  
**Atlanta, GA**

The HIMSS Educators SIG and the AUPHA Information Management Faculty Forum are looking for individuals to share their healthcare IT skills and knowledge. Reviewers are needed to review and score two-page abstracts of research proposals submitted for possible presentation at the HIMSS 2010 Annual Academic Forum held on Sunday, February 28, 2010, in conjunction with the 2010 Annual HIMSS Conference & Exhibition in Atlanta, GA.

The intent of the forum is to encourage practitioners and vendors to observe current research that has a practical application to the world of healthcare information technology.

Healthcare information management and technology professionals and educators interested in becoming reviewers must complete and submit an [application](#). As part of the application process, individuals will need to submit a current curriculum vitae, including a list of publications, presentations and other editorial experience. In addition, individuals must detail their areas of expertise and indicate any conflicts that would prohibit them from reviewing submissions. Reviewers selected for this year's peer review process will be offered the choice of a selected publication published by HIMSS.

Completed applications or questions should be forwarded to Mari Franks, Program Manager of Education, HIMSS, at [mfranks@himss.org](mailto:mfranks@himss.org) or 312-915-9559.
