

HIMSS eLearning Academy

The Anytime, Anywhere Education Solution

24/7 Fingertip Access to HIMSS High Quality Content

You look to HIMSS for the most comprehensive, up-to-date healthcare IT education in the industry. Now, look no further than your desktop to access HIMSS high-quality content on-demand — in a 24/7 self-paced format. Welcome to the newest...and most exciting addition to HIMSS educational curriculum - the HIMSS eLearning Academy.

Travel Budgets Decrease – Training Needs Increase

The eLearning Academy was developed to help address a growing concern shared by our members and healthcare professionals. Simply stated, as travel budgets are decreasing...the need for more specialized and quality education for staff is increasing. Now, the eLearning Academy provides the perfect online solution for an **anytime, anywhere** educational experience for your IT staff, clinicians, and administrators.

Specialized Training Found Nowhere Else

The robust coursework within the eLearning Academy blends information technology and healthcare content to offer progressive and measurable learning experiences. In addition, the HIMSS eLearning Academy offers unique training for specialized areas of healthcare IT and management systems not offered anywhere else. Some of these training areas include project management, clinician-focused use of information technology, IT customer service to the healthcare user, and healthcare IT strategic planning.

“ The eLearning Academy is a great opportunity to provide targeted, quality education to our entire staff without them leaving the facility. Web-based training is definitely in our future.”

Charles E. Christian, FCHIME, FHIMSS
Director of Information Systems and CIO
Good Samaritan Hospital
Vincennes, Indiana

Set Yourself Apart – With CPHIMS

Validate your expertise and credibility with the CPHIMS credential!

Through the HIMSS eLearning Academy, you can prepare for the CPHIMS exam by taking the CPHIMS Review Course. If you are already certified, you can earn valuable contact hours towards CPHIMS renewal.

Visit www.himss.org/getcertified for more information on CPHIMS.

Log on and Learn!

The HIMSS eLearning Academy provides interactive sessions and courses that engage learners in a self-paced design. Positive outcomes include accelerated learning and more importantly, increased retention over a longer period of time. This helps to foster professional development, career advancement and enhanced self-esteem.
