EMRAM
HIMSS SOLUTION

A strategic roadmap for effective EMR adoption and maturity

The Electronic Medical Record Adoption Model (EMRAM) is an eight stage (0-7) model that harnesses technology to support optimized patient care, reduce medication errors, improve operational throughput and achieve a near paperless environment.

Why EMRAM?

For over a decade HIMSS has guided healthcare organizations around the globe in electronic medical record (EMR) adoption and implementation. You could be the next to join this elite group of over 350 Stage 7 EMRAM organizations globally.

Improve care delivery through better use of technology with HIMSS assessment and strategy services.

- Analyze your current level of EMR adoption
- Chart your progression and accomplishments
- Compare your technology adoption against other healthcare providers
- Evaluate and implement what you need to achieve Stage 7
