GENERAL INFO

Stay Healthy and Safe at HIMSS22

• Masks are required throughout the HIMSS22 campus.
• Health & Safety Verification Desks are located near all registration areas.
• If you are experiencing any flu-like symptoms, stay in your hotel room and call the hotel medical staff.
• Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer (available throughout the HIMSS22 campus).
• Avoid touching your eyes, nose and mouth with unwashed hands.
• Look for socially distanced seating options in education sessions, networking events and exhibition areas to meet your comfort levels.
• Onsite COVID-19 testing is available; see page 3 for details.
• Complimentary face masks and hand sanitizer are available at PPE stations throughout the HIMSS22 campus. Device and space sanitizers are located throughout the convention center.

Sponsored by: rzero  SEAL SHIELD™

• Conference badges must be worn to all HIMSS22 functions and events and whenever on the HIMSS22 campus.

Specialty Education

**Canadian Session Series**
Explore the wide array of digital health efforts and activities occurring in the world’s second largest nation. Discover Canadian digital health approaches and solutions to local and universal challenges, gain insights from thought leaders, and network with those invested in the Canadian market.

*Sessions: 109, 127, 145*

**Clinically Integrated Supply Chain Session Series**
Healthcare depends upon a variety of external vendors, partners and business associates to support the delivery of patient care. While the Drug Supply Chain Security Act (DSCDA) requires compliance in 2023, organizations are working to position their supply chain functions to comply with the new regulations. Examine a case study on decentralized identifiers that leverage blockchain, ways to avoid supply chain cyberattacks, and why blockchain matters.

*Sessions: 189, 207, 225*

**Digital Health Transformation Session Series**
Explore crucial pillars in creating true digital health transformation including data and information, organizational governance, technology, workforce, analytics, infrastructure and supply chain. Examine actual outcomes from digital transformation initiatives, and discover how to leverage lessons learned and drive value.

*Sessions: HA1–HA15*

**Global Health Equity Session Series**
Leveraging data with AI and machine learning for reporting and analysis can revolutionize care delivery. However, bias can be introduced unintentionally for populations that are marginalized, experience health inequalities, or have insecurities based on social determinants of health. Discover how to avoid bias and pitfalls when using AI to improve care processes, and examine the overarching role of data in reducing healthcare disparities.

*Sessions: 19, HA2, 55*
Global Health Policy Connection
Examine cross-government collaboration in health information and technology programs, and gain insights into key initiatives, plans, priorities and opportunities.
Sessions 66, 158, 249

Government
Hear from experts at all levels of government on health information and technology-related public policy initiatives like Medicare, information blocking, cybersecurity, and congressional and state policy actions.
Sessions: 11, 12, 30, 46, 65, 66, 103, 104, 122, 140, 157, 158, 176, 195, 211, 212, 231, 249

HIMSS Davies Award of Excellence
The HIMSS Davies Award of Excellence showcases the thoughtful, evidence-driven application of information and technology by healthcare delivery organizations to substantially improve clinical care delivery, population health and patient outcomes. Explore Davies-winning, evidence-based case studies on governance and implementation strategies, workflow design, decision support, analytics and digital health solutions to improve the standard of care. Case studies have been reviewed to validate sustained improvements in patient outcomes including length of stay, readmissions, morbidity, mortality and improved safety metrics.
Sessions: 6, 42, 98, 134

Hospital at Home Session Series
Focusing on an individual’s needs in their own home by replacing a hospital admission, the concept of hospital at home is a combination of pre-hospitalization, acute, post-acute and ambulatory services. Examine three different approaches to achieving a hospital at home posture, leading to improved patient safety, quality and satisfaction.
Sessions: 99, 117, 135
Industry Solutions
Dive into up-to-date case studies in health information and technology. Explore client case studies, sponsored by market suppliers, with problem sets and real-life, implementable outcomes.

Innovation Session Series
Creating an environment where innovation is fostered, developed, encouraged and celebrated is both an art and a science. Hear how organizations have focused on applied innovation by creating environments that support process-oriented innovation to help realize the promise of transformation.

Sessions: 230, 248, 266

Payer Session Series
With CMS sunsetting traditional MIPS and moving clinician quality reporting to specific MIPS Value Pathways (MVPs), organizations are reviewing requirements towards achieving compliance with the patient at the center of care delivery. Get an overview of the HL7 FHIR API implementation guides that leverage both outbound and inbound data access through the Patient Access API, an initiative called “Measures That Matter to Primary Care,” and a focus on compliance beyond interoperable systems.

Sessions: 108, 126, 144

Process Automation Session Series
Leveraging automation to positively impact the clinical, financial and administration encounter of care can improve not only the care delivery experience but also operations. Examine how process automation has delivered real organizational value across the care setting, with a focus on using advanced analytics by leveraging data in various forms.

Sessions: 80, 209, 227
Retail Health Session Series
With patient-centered healthcare, the future is now: focusing on a patient’s distinct experiences is a strategic imperative and will drive how care is delivered from this point forward. Healthcare consumers require convenience, ease of access, choices and flexibility. Explore the concept of retail health, why it matters, and how the retail industry has introduced disruption that has changed the paradigm forever: pivoting from a brick-and-mortar posture to one that is data driven in a digital-first marketplace.
Sessions: 270, 276

Space Health Session Series
Described as the “final frontier,” space missions often occur over months and years. Lower-orbit missions can deliver healthcare to astronauts swiftly by resupplying and evaluating them back on Earth in as little as 24 hours; but deep-space missions to Mars and beyond require 2.5–3 years to return to Earth. With NASA and their partners, examine the impact of space on the human body and autonomous decision-making, and the use of small sensors to deliver and monitor care directly to astronauts and others experiencing space.
Sessions: 185, 203, 234

Views From the Top
Be inspired by compelling stories from high-ranking leaders in a variety of industries in top-level, strategic education sessions.
Sessions: 33, 51, 69, 92, 94, 107, 125, 143, 161, 179, 184, 198, 216, 234, 252, 270, 288

New Products & Services

Explore new products and services hitting the global health ecosystem in the HIMSS22 Mobile App.
Accelerate

Lobby C

Accelerate is a digital professional network and learning platform from HIMSS that connects stakeholders across the global healthcare ecosystem. Users can build networks of peers and thought leaders, attend events hosted by some of the world’s most prestigious healthcare organizations, and take courses and gain certifications—anytime, anywhere. Connect, collaborate and credential 24/7 with healthcare associations, providers and suppliers on the only neutral platform backed by HIMSS. Stop by our booth in Lobby C or scan the QR code below to learn more and create your account.

Healthbox

W332

Healthbox, a HIMSS Solution, is an advisory services firm that enables healthcare organizations—providers, payers and technology companies—to develop, adopt or invest in technologies that will drive innovation and digital transformation. In its 10-year history, Healthbox has established methodology to enable organizations, entrepreneurs and intrapreneurs to set strategy, commercialize innovative solutions, and advance digital capacity.
HIMSS provides healthcare organizations with innovative solutions lead by research-based insights and guidance to optimize their digital health transformation and reimagine global health and wellness. Our digital health advisors use in-depth assessments and global benchmarks to develop personalized, comprehensive road maps that unite and empower all participants. Health systems use our maturity models to optimize digital work environments, improve performance, and support an exceptional patient experience. We support digital health transformation beyond adoption, sharing our insights with market suppliers, payers and other stakeholders to advocate for outcomes-driven solutions for the global health ecosystem.

Join us for educational sessions and networking throughout the week. Learn from HIMSS staff and volunteers about our resources and initiatives and how you can be more engaged with us during the year. Visit the HIMSS22 Mobile App or website for the schedule.

HIMSS Gives Back
Caring for local communities

Every baby deserves a healthy start.

We’re raising funds to benefit Healthy Start Coalition of Orange County, a not-for-profit organization working to improve maternal and infant health.

Help us reach our $30,000 goal.

DONATE TODAY!
Global Health Equity Network

Join us to advocate for health equity for every person on the planet.

Collaborate with other HIMSS members to advance diversity and inclusion to improve care access, delivery and outcomes for all.

• Decrease disparities in underserved and underrepresented groups.
• Champion a more diverse and innovative healthcare workforce.
• Work with colleagues to find real-world solutions to global and local challenges.

Our communities are open to all HIMSS members: African American | Latinx | Women in Health IT
