# SPECIALTY EDUCATION

Complimentary to all registered attendees. No additional fee to attend.

## Alternative Care Delivery Models Series

Delivering care at home has shown tangible results in patient satisfaction and preventable hospital readmissions. In this session series, learn perspectives from three different organizations on how their approach to implementation care delivery at home, the challenges, opportunities, and the emergence of new business models.

Sessions 102, 120, 138

## AI/ML Series

Applying the use of artificial intelligence and machine learning tools has been a game-changer in healthcare. By using the power of these tools, learn how organizations have leveraged technology to prioritize care based on risk and social vulnerabilities, analyzed metrics to better understand the population, and used ethical machine-learning practices to improve the workload of caregivers.

Sessions 128, 146, 164

## Behavioral Health Series

While demand for behavioral healthcare services exploded during the height of the COVID-19 surge, organizations comprised in this session series have focused beyond the pandemic by establishing programs to address ongoing behavioral health wellness, expanding access based on a data-driven workflow analysis, and using a unique care delivery models to assess and treat mental health and substance abuse disorders.

Sessions 192, 210, 228

## Canadian Series

With a focus on the experiences of Canadian healthcare providers, an immersive experience awaits attendees to this session series on the use of key concepts and techniques for explainable machine learning, a glimpse of the first smart hospital to embed technology within clinical workflows, and the use of an interdisciplinary lens to reduce EHR-related burden at a large teaching hospital.

Sessions 99, 117, 135

## Cybersecurity Series

Healthcare continues to be a prized target for cybercriminals. To thwart these efforts, organizations in this session series have taken approaches to implement a standard for the Clinical Internet of Things, which projects against the trust, identity, privacy, protection, safety and security principles. They have addressed cyber and data governance with a set of healthcare cyber essentials and have elevated cybersecurity as a strategic imperative and received more significant buy-in and investment with their organization.

Sessions 6, 24, 42

## Data Science Series

Explaining the unexplainable represents both a challenge and an opportunity. Data holds the answers to helping healthcare organizations guide wellness, inform the delivery of care and lower the cost of care delivered. Organizations in this session series demonstrate how using various tools can help providers yield highly accurate predictions, how one developed a dashboard that supports maternal child health clinical quality assurance and performance improvement measures, and the experiences of another organization in leveraging data science to manage iodinated contrast shortages based on mitigation and usage strategies.

Sessions 193, 211, 229

## Digital Health Transformation Series

Join us for an immersive experience that explores the many facets of creating true transformational change. Occurring across 14 sessions Tuesday through Thursday, engage in sessions featuring world renowned organizations that truly understand the problems your organization is focused on solving.

The presentations touch upon a host of topics that are crucial pillars in digital transformation, including digital health technologies, social determinants of health/health equity, artificial intelligence/machine learning, digital transformation strategies/digital leadership/ethics, data and information security/cybersecurity and emerging technologies. Our speakers focus on actual outcomes resulting from digital health transformation initiatives that explain how to leverage lessons learned and drive value for the populations served.

Sessions 13, 31, 49, 67, 85, 103, 121, 139, 157, 194, 212, 230, 248, 266

## Global Health Policy Connection Sessions

Participate in three sessions focused on cross government collaboration on health information and technology programs, and gain insights into key initiatives, plans, priorities and opportunities.

Sessions 86, 158, 249

## Government Sessions

Hear from experts at all levels of government on health information and technology-related public policy initiatives like Medicare, information blocking, cybersecurity, and Congressional and state policy actions.

Sessions 14, 17, 35, 50, 53, 68, 86, 88, 104, 107, 122, 125, 142, 143, 158, 161, 176, 198, 213, 216, 234

## Health Equity

With inequitable health practices affecting marginalized and underserved populations, innovation has the potential to advance health equity for all. Organizations in this session series focus on the promise of innovation in solving the equity crisis, identifying how Certified and Federally Qualified Health Centers are now equipped to provide whole-person care, and examining the “TechQuity” by leveraging technology in pursuit of health equity. In addition, hear about experiences of increasing care to the rural and underserved while also focusing on data justice and ethical practices.

Sessions 12, 30, 48, 66, 84, 215

## HIMSS Davies Award of Excellence Sessions

The HIMSS Davies Award of Excellence showcases the thoughtful application of information and technology by healthcare delivery organizations to substantially improve clinical care delivery, population health and patient outcomes.

The Davies Awards education sessions highlight Davies winning evidence-based case studies on topics including governance and implementation strategies, workflow design, and decision support to improve the standard of care, analytics to drive quality improvement, and the utilization of digital health solutions. Presented case studies have been reviewed to validate sustained improvements in patient outcomes, including length of stay, readmissions, morbidity, mortality and improved safety metrics.

Sessions 4, 40, 94, 130

## Industry Solutions Sessions

South Building | Level 4 | S402, S403

Receive the most up-to-date case studies on topics important to the health IT conversation. Sponsored by market suppliers, client case studies are presented with a problem set and real-life, implementable outcomes.

Sessions 3, 5, 21, 23, 39, 41, 57, 59, 75, 77, 93, 95, 111, 113,  
129, 131, 147, 149, 165, 167, 184, 186, 202, 204, 220,  
222, 238, 240

## Interoperability Series

It is well known that interoperable health systems could dramatically reduce medical errors. This session series focuses on various aspects of semantic interoperability that increase our ability to improve care, address political and social aspects of providing care, address various NGO and governmental challenges, and identify implementation standards that address the ways semantic interoperability improves the usability of data.

Sessions 10, 28, 46, 89

## Reimbursement and Price Transparency Series

With a focus on reimbursement and price transparency, revenue cycle management initiatives have the potential for a variety of process automation initiatives. Learn how the practice of behavioral economics can be applied to incentivizing physician performance as related to reimbursement, how the automation of the prior authorization workflow has involved both process improvement and intelligent automation principles, and learn about the future of digital health and coding practices from Medicare's perspective.

Sessions 44, 62, 80

## Venture Capital

Creating next-generation technologies is capital- and resource-intensive, time-consuming, and risky. Venture capitalists understand these challenges and opportunities and look for both the promise and the possibilities in the future of healthcare. During this session series, leverage the experiences of a community-based health system's entrance into creating a precision medicine program, identify new sustainability models for health information exchanges, and review how an NGO is bringing hope and healing to the most vulnerable through aviation.

Sessions 189, 225, 283

## Views from the Top

Get inspired by compelling stories from high-ranking leaders in a variety of industries in top-level, strategic education sessions.

Sessions 16, 34, 52, 70, 88, 106, 124, 142, 160, 178,  
215, 233

# EDUCATION SESSIONS

Held at McCormick Place  
All times are Central Time (CT).

## TUESDAY, APRIL 18

---

8:30 am – 10:00 am

- 1 Opening Keynote**  
**Responsible AI: Prioritizing Patient Safety, Privacy, and Ethical Considerations**  
W375 | Blackman, Firth-Butterfield, Lee, Moore, Ross

10:30 am – 11:30 am

- 2 Implementing AI in Radiology: From Simple Algorithms to Platform Solutions**  
S401 | Linstad, Severinsen, Silsand

10:30 am – 11:30 am

- 3 Advancing Care Delivery with Device Data and Analytics**  
S403 | Hess, Mitchko, Reed, Woodlock

10:30 am – 11:30 am

- 4 Excellence in Public Health: Parkland Health, Dallas County, Parkland Center for Clinical Innovation**  
S404 | Moran, Longo, Huang

10:30 am – 11:30 am

- 5 Unlocking Value From Analytics—Do You Have The Right Fuel?**  
S402 | Collins, Drouin, Saeed, Vigil

## HIMSS Connect

North Building | Lobby

Your friends, partners, and peers are almost never in one space at the same time—but they are here. HIMSS Connect is the networking spot, where you can explore how HIMSS's initiatives and membership transform health tech year-round. Want to impress colleagues with your knowledge of healthcare's latest innovations? Join one of many educational sessions led by

HIMSS's digital health experts and industry partners. We'll even run through in-depth assessments and maturity models that'll help transform every bit of your healthcare tech. (Love that for you.)

Check out the HIMSS23 mobile app or website for the full HIMSS Connect schedule.

# HIMSS INTEROPERABILITY SHOWCASE™

North Building | Hall B | Booth 7946

## Connections That Transform Health

Experience interoperability transactions with real-world scenarios at the highest attendee-rated destination on our exhibit floor. Watch demonstrations of standards-based technology with live health data exchange to support continuity of care and improve outcomes.

Choose your path though the Showcase as connected care stories unfold in settings including:

- Home care
- Inpatient
- Long-term Post-Acute care (LTPAC)
- Outpatient
- Public Health

Witness the impact of competitive systems and products working together to improve clinical outcomes, quality and patient experience. Engage with experts in our demos and interactive education theater presentations and make the connections you need to transform health.

Visit the HIMSS23 Mobile App or website for updated information.
