

Healthcare Cybersecurity Forum Explores Patient Safeguards and Defense Fortification

Securing Healthcare: Vulnerable Technology, Resource Restraints and Human Error

Media contact: Morgan Searles, morgan.searles@himss.org

Boston – The foremost authorities in healthcare cybersecurity will share cutting-edge defenses and strategies to prepare for future attacks at the 2023 HIMSS Cybersecurity Forum from Sept. 7-8 in Boston.

Healthcare cybersecurity professionals will learn best practices for safeguarding patients, defending against attackers and delivering business value while adapting solutions for talent shortages and inconsistent cybersecurity governance. [Registration is open for the 2023 HIMSS Healthcare Cybersecurity Forum.](#)

The event offers access to industry visionaries, including **John Riggi**, National Advisor for Cybersecurity and Risk, American Hospital Association; **Joelle Calcavecchia**, Special Agent, FBI Boston Division; and **William Scott O'Donnell**, Special Agent and Private Sector Coordinator, FBI Boston Division.

With continuing education and professional development opportunities, attendees will discover new career opportunities, gain industry recognition and explore possibilities for professional growth.

Session highlights include:

- The Global Cyber Threat Landscape: Healthcare Risk, Impact and Response
- Artificial Intelligence: Cybersecurity's Friend or Foe?
- How a Physician-Owned Practice Recovered from an Advanced Ryuk Ransomware Strike
- IoT, IoMT, and OT: Safeguarding the Connected Hospital
- The forum features networking opportunities through luncheons and table talks, designed to connect the healthcare cybersecurity community.

Learn to proactively shield healthcare's expanding digital footprint and secure data beyond the confines of an enterprise. Come away empowered to implement cybersecurity measures that ward off malicious attacks, maintain patient trust, and ensure business continuity.

Professional journalists can receive a complimentary press pass to attend and cover the event.

About HIMSS

Vision

To realize the full health potential of every human, everywhere.

Mission

Reform the global health ecosystem through the power of information and technology.

[HIMSS](#) (Healthcare Information and Management Systems Society) is a global advisor, thought leader and member-based society committed to reforming the global health ecosystem through the power of information and technology. As a mission-driven nonprofit, HIMSS offers a unique depth and breadth of expertise in health innovation, public policy, workforce development, research and digital health transformation to advise leaders, stakeholders and influencers across the global health ecosystem on best practices. With a community-centric approach, our innovation engine delivers key insights, education and engaging events to healthcare providers, payers, governments, startups, life sciences and other health services organizations, ensuring they have the right information at the point of decision.

HIMSS has served the global health community for more than 60 years, with focused operations across North America, Europe, the United Kingdom, the Middle East and Asia-Pacific. Our members include more than 120,000 individuals, 440 provider organizations, 510 nonprofit partners and 560 health services organizations. HIMSS offers a variety of membership types and ways to get involved.
