**Jakarta, Indonesia** – Cheating death through technology, creating “human digital twins” and the double-edged sword of emerging technology are among the topics leading healthcare professionals will address at the HIMSS23 Asia Pacific Conference & Exhibition, slated for 18-21 September in Jakarta, Indonesia.

HIMSS23 APAC, hosted by the Healthcare Information and Management Systems Society, is the most influential digital health conference in the region. HIMSS is a global advocate for digital health transformation driving health equity.

The conference offers curated educational sessions featuring global health thought leaders with real-world case studies and the latest data and evidence on digital transformation. The exhibition floor features more than 60 exhibitors sharing the latest innovative solutions that will change how healthcare is delivered.

HIMSS23 APAC is cohosted by the Digital Transformation Office (DTO) of Indonesia, which will present on Indonesia's blueprint for digital health transformation and the public health application SATUSEHAT.

The event builds collaboration through the APAC Health Data Space Ministerial Summit and kickstarts the creation of a regional health data space.

Registration is open for HIMSS23 APAC. Professional journalists receive a complimentary press pass to attend and cover the event.

### **About HIMSS**

#### **Vision**

To realize the full health potential of every human, everywhere.

#### **Mission**

Reform the global health ecosystem through the power of information and technology.

HIMSS (Healthcare Information and Management Systems Society) is a global advisor, thought leader and member-based society committed to reforming the global health ecosystem through the power of information and technology. As a mission-driven nonprofit, HIMSS offers a unique depth and breadth of expertise in health innovation, public policy, workforce development, research and digital health transformation to

advise leaders, stakeholders and influencers across the global health ecosystem on best practices. With a community-centric approach, our innovation engine delivers key insights, education and engaging events to healthcare providers, payers, governments, startups, life sciences and other health services organizations, ensuring they have the right information at the point of decision.

HIMSS has served the global health community for more than 60 years, with focused operations across North America, Europe, the United Kingdom, the Middle East and Asia-Pacific. Our members include more than 120,000 individuals, 440 provider organizations, 510 nonprofit partners and 560 health services organizations. HIMSS offers a variety of membership types and ways to get involved.
