Become a HIMSS Approved Education Partner.

HIMSS Approved Education Partners (AEPs) provide focused education to current and future health information and technology professionals with HIMSS-approved review courses and training programs, including preparation for CAHIMS™ and CPHIMS™ certifications. As an AEP, your organization will gain access to tools and resources designed to meet the training needs of the growing and evolving health information and technology profession.

BENEFITS
We’ll promote your organization as a HIMSS AEP.

After your application is accepted, HIMSS will:

- Market your organization to our 80,000+ individual members, 650+ health services organizations, 470+ non-profit partners and 480 provider organizations.
- Announce your affiliation as an AEP in the HIMSS Weekly Insider.
- List your organization on our AEP Member Directory page.

You’ll gain immediate prestige—and new ways to market and grow your program.

- Demonstrate that your program meets HIMSS’s high educational standards by featuring our official AEP seal on your marketing and program materials.
- Continue to provide superior education and training with the help of HIMSS tools and resources.
- Expand your education and networking with HIMSS Communities.
- Host an educational webinar through HIMSS.
- Share select events through HIMSS channels.
- Utilize customizable, professionally designed marketing materials.

APPLICATION & FEES
AEP agreements are effective for three years, provided that the application fee is paid with the initial application and payment is received on an annual basis or in full upon signing your agreement. Organizations must reapply for AEP status every three years.

Non-Refundable Application Fee: $250

Annual Fees:
- For-Profit Providers: $795
- Non-Profit Providers: $695
- Academic Organizational Affiliates: $595

Apply to be a HIMSS Approved Education Partner today at www.himss.org/aeppartner.

Questions? Contact Mara Daiker at mdaiker@himss.org or 312-915-9289.

Participating in the AEP program has given us a larger audience of experienced health information and technology professionals to interact with. The HIMSS AEP program provides an excellent avenue for reaching a captive and qualified population of industry professionals ready and eager to learn.

Susan Fenton, PhD
Associate Dean for Academic Affairs & Associate Professor, School of Biomedical Informatics, UT Health Science Center at Houston

We developed a master’s degree in healthcare informatics, which is somewhat new to academia and our university. Having the AEP logo on our marketing materials has provided potential students with a level of confidence that the program is of sound structure and quality.

Debra M. Wolf, PhD, MSN, BSN, RN
Professor of Healthcare Informatics and Nursing, Chatham University, Pittsburgh, PA
