Adding Meaning to Interoperable Exchange

Steven Lane, MD, MPH, FAAFP

Family Medicine, Palo Alto Medical Foundation
Clinical Informatics Director, Privacy, Information Security & Interoperability
(Moderator)

linkedin.com/in/steven-lane-md/
@emrdoc1

- Practicing primary care physician and clinical informaticist at Sutter Health in Northern California where he serves as Director, Privacy, Information Security and Interoperability.
- Serves on the board of The Sequoia Project, as a member of the ONC HIT Advisory Committee, the Carequality Steering Committee, the DirectTrust Clinicians Steering Workgroup, the HL7 Da Vinci Project Clinical Advisory Council, and the HIMSS Interoperability & HIE Committee.
- Clinical Professor of Family & Community Medicine at the University of California San Francisco.
**Learning Objectives**

- Identify stakeholders that are emerging to inform interoperability needs and use cases.
- Summarize the challenges an organization faces in transforming data into usable information.
- Recognize the organizational and policy decisions that can guide interoperability to levels of greater integration and meaning.
Nancy Beale, MSN, RNBC

President, 
Beale & Associates

- Nancy’s 35 years of healthcare experience span clinical operations, clinical leader at an IT vendor, consulting, and IT operations. Nancy holds a Master’s in Health Systems and Healthcare Informatics, ANCC board certified in nursing informatics, and is currently a Ph.D student focused on clinical technology acceptance. 
- 2019 HIMSS-ANI Nursing Informatics Leader of the Year
- While at NYU Langone Health, Nancy led a team of 250 people, growing award-winning talent to achieve HIMSS 6, HIMSS 7, HIMSS Davies Award, and several innovation partnerships 
- Provided clinical IT leadership in merger and acquisition activity, implementation of a new and fully digital hospital, formation of a cost partnership with a vendor in India for operational IT support services, and oversight of onshore clinical Helpdesk operations 
- Active and past professional membership committee participation and leadership includes past HIMSS NI chair, Alliance for Nursing Informatics Policy Co-Coordinator, DaVinci Clinical Advisory Committee, Nursing Knowledge Big Data Policy workgroup along with membership in ACHE, AMIA, ANA, ANIA, AONL, AWHONN, MNRS, and Sigma Theta Tau
Ginnifer Minor
Quality Improvement Coach,
Children’s National Medical Center

• In her role with Children’s Pediatric Health Network (PHN), Ginnifer works with community providers in the Washington, DC metropolitan area to improve outcomes for children and their participating physician practices. This is accomplished, in part, through evidence-based processes and the secure exchange of patient data across the continuum of care.

• 15 years of Healthcare Information Technology deployment experience across a wide range of organizations for process improvement and adoption.
Adding Meaning to Interoperable Exchange

Deanna Peterson, MHA, RHIA, CHPS, LNHA

Vice President for Health Information Management Services and Privacy Officer, First Class Solutions

- Leads the long-term care services division of the firm. Since 2009, she has grown that division to serve over 90 long-term care facilities in multiple states.
- Assists the facilities with documentation compliance, medical records policies and procedures, EHR implementation, legal health record definition and privacy issues. She has helped coordinate state-wide education in Missouri for ICD-10 and spoken for several associations on long term care related issues.
- Active member of the Missouri Health Information Management Association (MoHIMA) and American Health Information Management Association (AHIMA), having held several positions in both organizations including serving as co-chair of AHIMA’s Long Term Post-Acute Care Practice Council and formerly serving as Vice President of MoHIMA.
Jeff Wall, MD, FACOG

Sr. Director, Clinical Strategy,
Cerner

• A physician with over 22 years of clinical experience, currently is Sr. Director of Clinical Products for Cerner, the world’s largest healthcare IT organization, where he works to define the capabilities of Cerner solutions for the physician community.
• Prior to joining Cerner, worked with University Physician Associates where was an Associate Professor of Obstetrics and Gynecology at the University of Missouri Kansas City Medical School (UMKC). In his tenure at the university he was the medical director for the Women’s Health and Wellness Center at Truman Medical Center, UMKC’s primary teaching hospital.
• Has served on national committees and written for the American Congress of Obstetricians and Gynecologists (ACOG) as well as the Central Association of Obstetricians and Gynecologists and has spoken on women’s health care issues and Healthcare IT. He is a veteran of the United States Navy.
