

CISOM

HIMSS SOLUTION

Supply chain infrastructure to inform personalized care delivery to patient populations

The Clinically Integrated Supply Outcomes Model (CISOM) is an eight stage (0-7) model that provides a strategic pathway to track processes and products used in care by mobilizing data to create real world evidence of impact and outcomes for patient populations.

Why CISOM?

Health systems require automated supply chain infrastructure at the point of care to proactively identify risk of adverse events to strengthen quality and safety for patients and improve system performance.

- Reduce supplies cost informed by inventory management
- Integrate supply chain tools to inform clinical decision making, proactive risk management and care innovation
- Create traceability of care processes, and products used in care to support patient safety
- Drive the personalization of care for populations informed by best outcomes for patients

Benefits to Healthcare Leaders

Track

Improve inventory management through product utilization tracking using supply chain tools.

Connect

Mobilize supply chain data to reduce variation in care to drive cost reduction and strengthen quality outcomes.

Measure

Patient outcomes linked to care processes, products, and care teams to proactively inform delivery of quality care for every patient.

Impact

Enable personalized care delivery and proactive risk management to population segments informed by real time supply chain data at point of care through strategic supply chain management.

CISOM

HIMSS SOLUTION

Progress to Stage 7 with the CISOM Toolkit

CISOM Gap Assessment

Identify the opportunities for improvement in your healthcare supply chain infrastructure with an CISOM Gap Assessment Report.

CISOM Validation

Review and confirm your organization's progress with onsite validation from our team of industry experts.

CISOM Baseline Score

Take part in the HIMSS Evaluation to get your CISOM Baseline Score.

CISOM Strategy

Receive a virtual or onsite strategy session that provides a prescriptive, customized roadmap through the CISOM stages.

CISOM Education

Schedule an expert session with a deep dive into key focus areas to educate your staff on the value of CISOM and secure buy in from stakeholders.

HIMSS offers information and technology frameworks that assist regulatory bodies and healthcare providers in making lasting improvements in efficiency, performance, and care outcomes.

With a suite of Maturity Models led by flagship model EMRAM, HIMSS provides prescriptive frameworks to healthcare organizations allowing for global comparability, benchmarking, and strategic clinical and financial improvement.

The Analytics Solutions Certified Program offers professional training for vendors to educate and build strategy around the Maturity Models.
